403.20.03 General

Mary Washington Hospital Center (MWHC) is a transport destination option for clinicians transporting patients in the southern region of the county. While MWHC is classified as both a trauma center and cardiac intervention center in Virginia, Maryland does not recognize their status for MD clinicians. All other patient types may be transported to MWHC from the southern regions of the county.

Charles County Department of Emergency Services STANDARD OPERATING PROCEDURES

403.20.04 Policy

1. Because MWHC is located in Virginia, EMRC does not communicate with MWHC.
2. All patients transported to MWHC require a medical consultation using the following recorded lines:
 - a. Main: 540-373-0348
 - b. Backup: 540-741-4768
3. Personnel should notify the 911 Communications Center when they have re-entered the County.
